

March 24, 2020

Dear Friends of Endeavor,

First, thank you for your overwhelming support. It is truly appreciated. We are part way there, but still need help!

As you know, Endeavor responds to all 911 emergency medical calls in Burlington City, Burlington Township, Edgewater Park, Beverly City and half of Springfield Township. We are a non-profit, non-government, 501c3 organization. Endeavor is on the front lines of the battle with COVID-19. Our crews often go into the unknown risking their health and the health of their families. We are taking every measure to protect their safety.

Over the past several days, we have received several calls and emails asking how the community can help our organization. The following are a few suggestions.

- We need N95 masks. The masks should be new and preferably packaged
- We need eye protection, specifically safety glasses. Again, new and packaged
- We need Lysol cleaning products

**All of the above items are one time use only!**

We would also appreciate any support you can give to our staff. Especially in the following:

Any single cans/bottles of drinks such as soda, iced tea or Gatorade (They are eating/dinking on the run!)

Letters and Cards of Encouragement. (We are all a little nervous.)

Finally, our annual budget was not planned for a global pandemic. Any and all financial donations are greatly appreciated.

Our Team has been protecting and servicing our communities for 80 years. We just need a little help on this one.

Warmest Personal Regards,

David C. Ekelburg  
Chief/Chief Operating Officer
